Misoprostol and Mifepristone

- Mifepristone registered in ~ 67 countries as of early 2018
- Misoprostol registered in many more countries
- Combipacks registered in a smaller subset of countries where mifepristone is registered

- Increase awareness and resources
- Increase the global pipeline

- Support an analysis of cost of goods
- Commission retail price analysis across countries

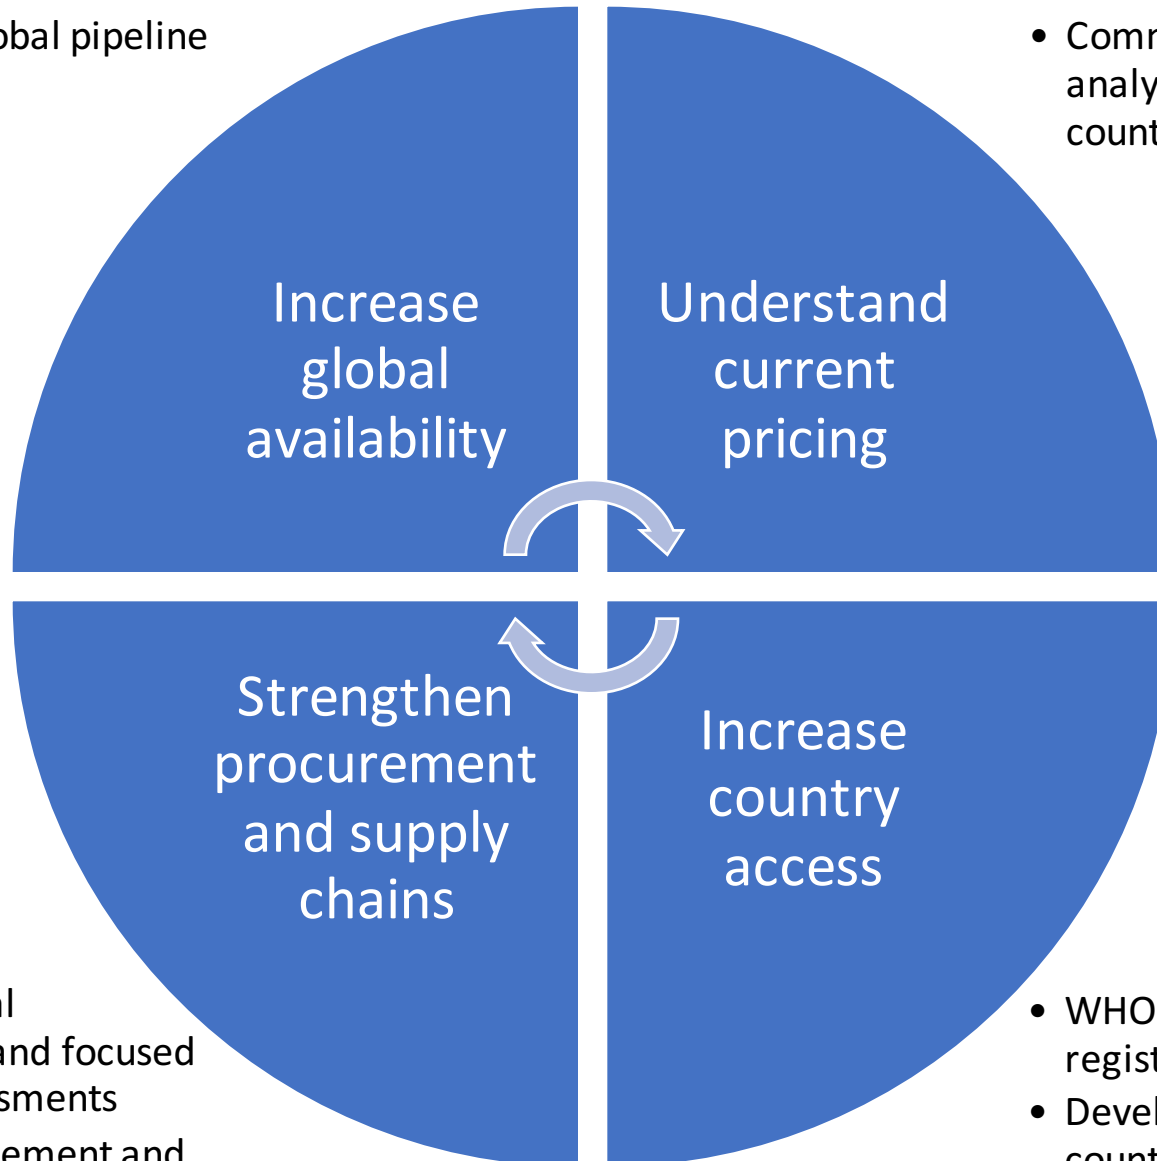

- Support global assessments and focused country assessments
- Develop, implement and document models

- WHO collaborative registration process
- Develop and implement country introduction plans
